# Anatomy of a Pitch

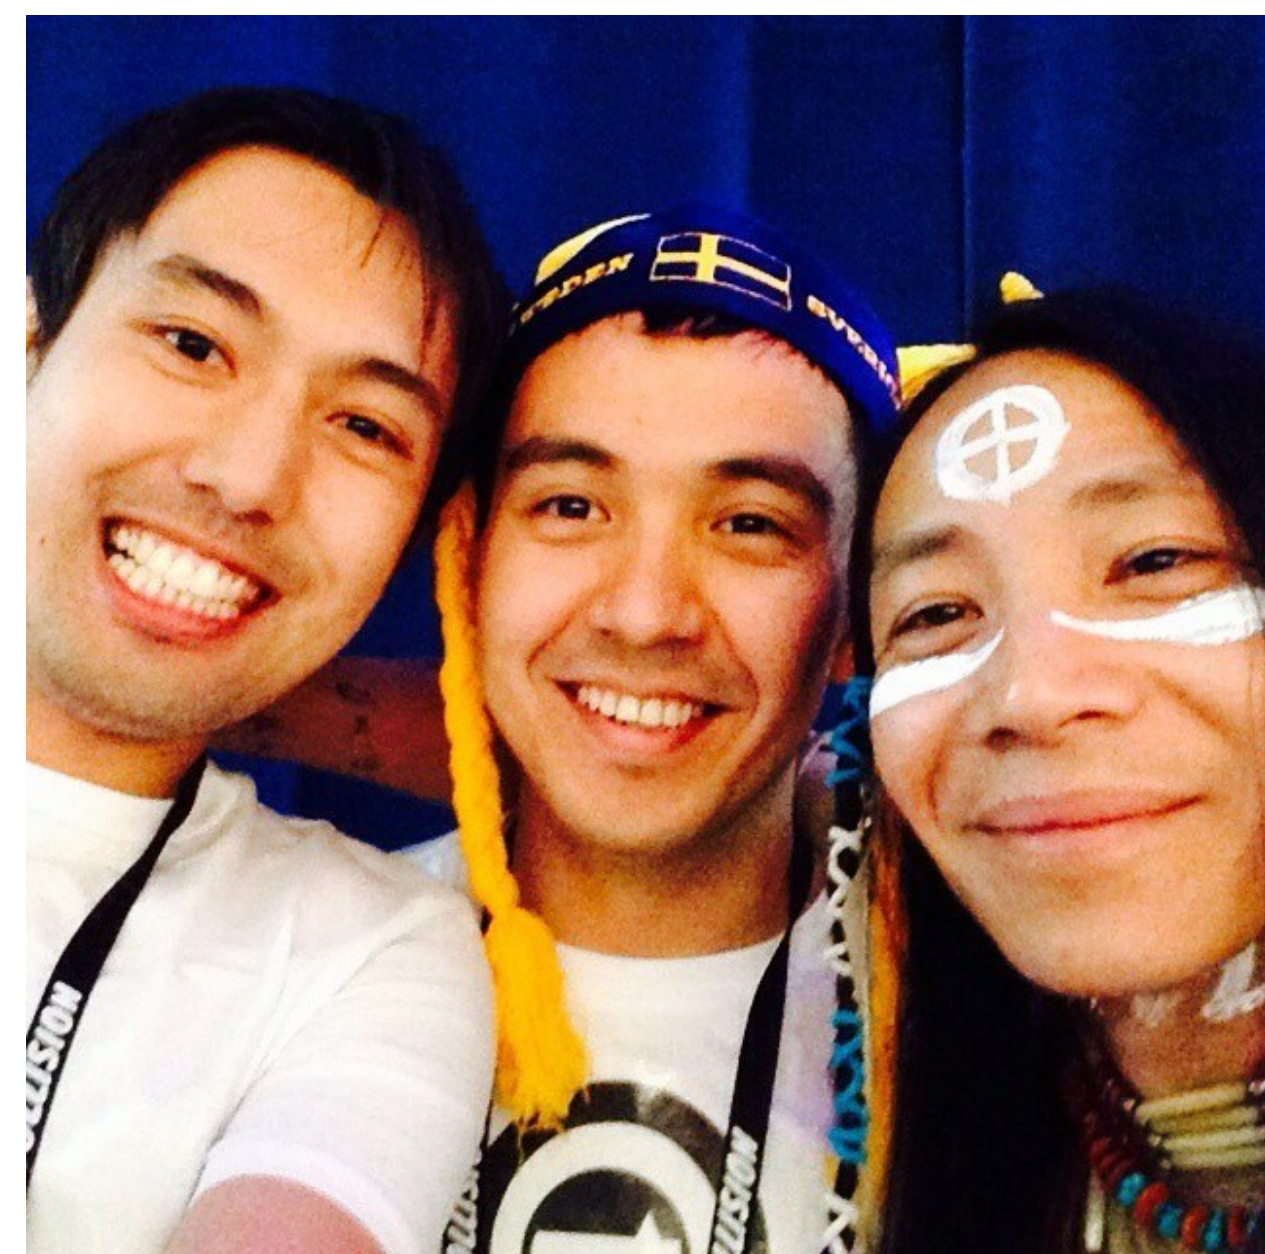

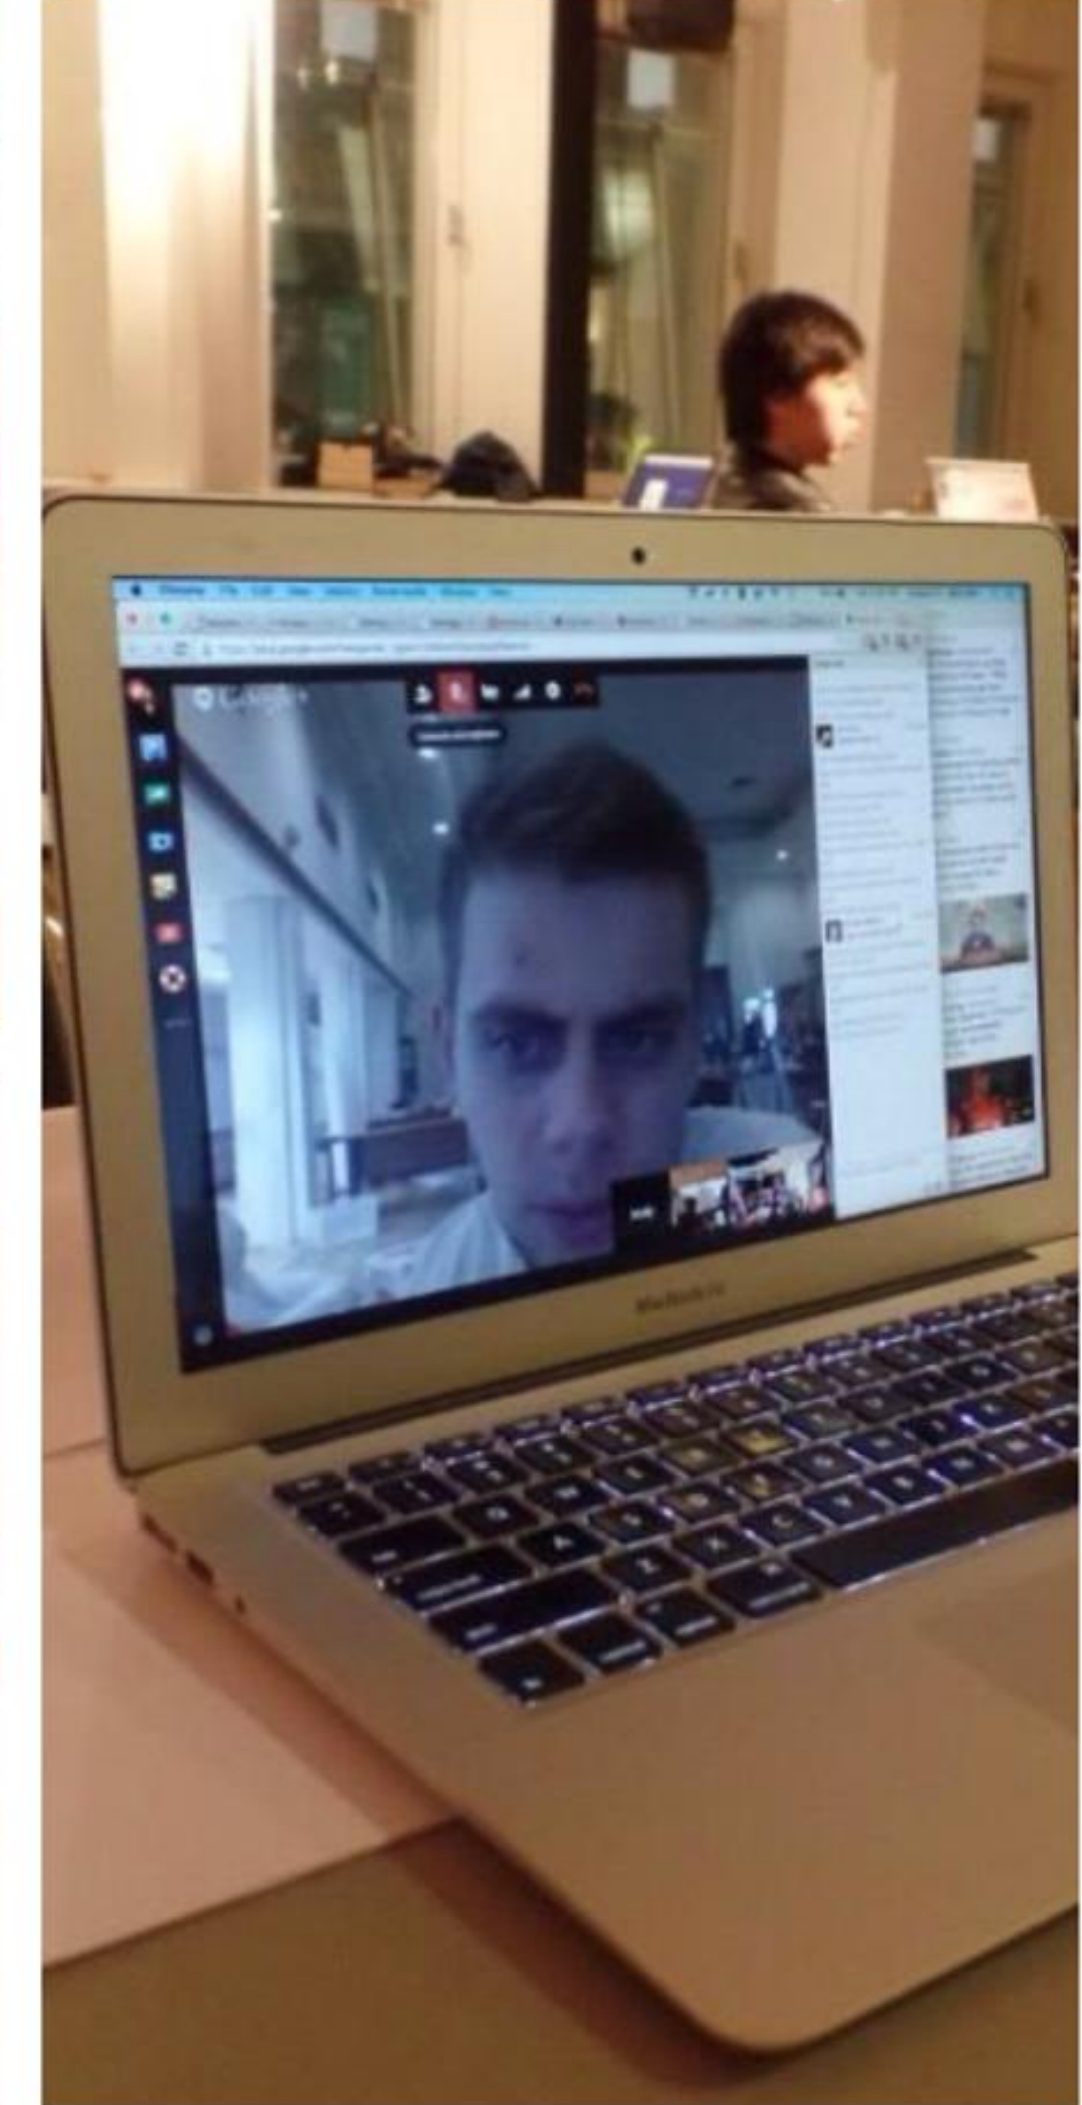

[name]! The  
problem solving is  
[problem]. My  
solution is  
[solution]. To do  
this we'll need  
[resources]. Let's rock  
this weekend!

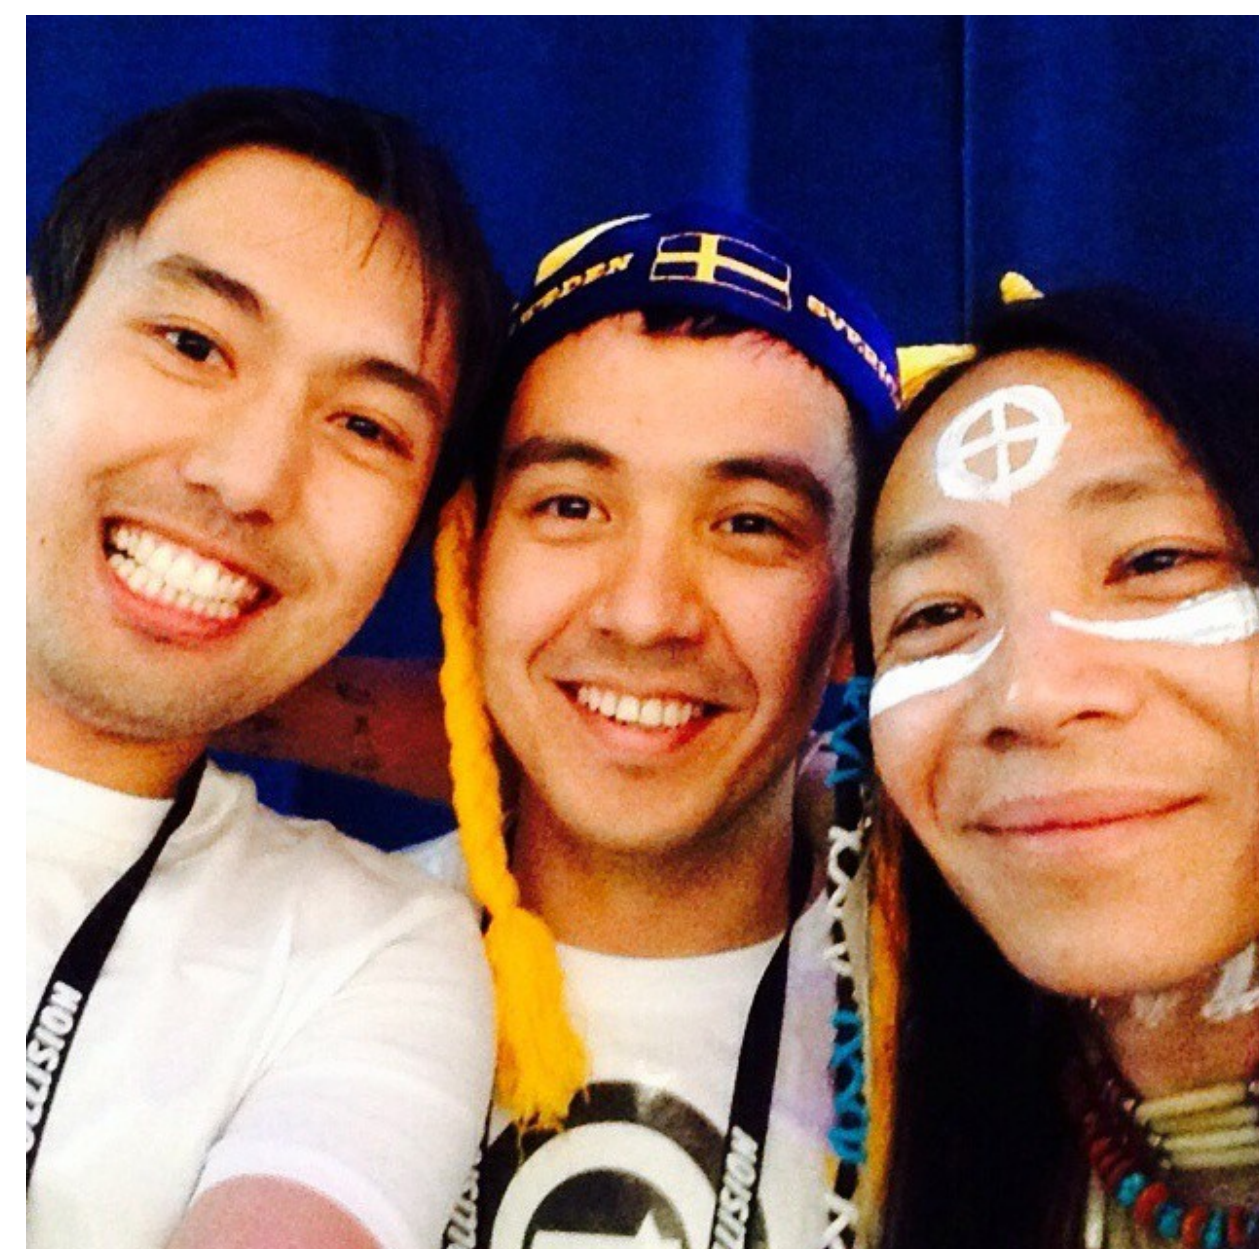

- 1 Your name
- 2 The problem you're solving and who it's for
- 3 Your solution, it's name, and why it's unique
- 4 Who do need on your team

**What tech stack was needed**

# Tech framework requirements

- Entire stack in one programming language
- Quick learning curve
- Rapid prototyping
- Possibility of future migration

That's where MeteorJS came in

# Why MeteorJS

- Full stack JS framework
- Full control over data
- Cost effective to host
- Steep learning curve
- Rapid prototyping
- Works with React, Vue, Svelte & Blaze

# Demo

# Thanks!
